

You Can Depend Upon What Your Neighbors of East Central New York Say!

HERE are extracts from letters, selected at random, received by us in one week from East Central New York. From all parts of this and every other state come equally enthusiastic and numerous letters. So unique is the Larkin plan of giving to the consumer the entire saving of middlemen's expenses and profits, which are so much

greater than generally thought, that the bargains we offer may make you wonder—may even tax your credulity—but this unsolicited testimony from wholly disinterested sources should be convincing. Remember that "the proof of the pudding" is in the eating. These folks have tried it. Will you?

The Larkin Soap Mfg. Company.
